

HAFFMANS GMT

ANALOG CO<sub>2</sub> GEHALTEMETER

## GENERAL PRODUCT INFORMATION

In the beer and beverage industries, the content of dissolved carbon dioxide ( $CO_2$ ) is a determining factor in the quality and taste of beer and carbonated beverages. Therefore, breweries as well as soft drink manufacturers continuously control and measure the  $CO_2$  quantity during production.

The Analog  $\mathrm{CO}_2$  Gehaltemeter, type GMT, enables a fast and accurate determination of the  $\mathrm{CO}_2$  content in beer and carbonated beverages based on Henry's Law. Most importantly, the measuring results are reproducible and not dependent on the operator.

Once the sample is taken equilibrium is automatically created and the operator reads the pressure from the manometer and the temperature from the thermometer. The  ${\rm CO_2}$  content is then determined by using a Pentair Haffmans' slide rule.

## **CUSTOMER BENEFITS**

Accurate product control

 reproducible and operator independent results

 At-line, direct sampling during the production process (from process lines, vessels, tanks or kegs)

# HAFFMANS GMT ANLOG CO<sub>2</sub> GEHALTEMETER

## **TECHNICAL DATA**

#### **Measuring executions**

Thermometer -2.0 - 40.0 °C

-2.0 - 20.0 °C\*

30.0 - 70.0 °F

Manometer 0.0 - 1.6 barg

0.0 - 2.5 barg\*

0.0 - 4.0 barg 0.0 - 6.0 barg

Slide rule barg, °C, % w/w\*

barg, °C, Vol

**Accuracy** 

Temperature  $\pm 0.5$  °C

Pressure Class 1.0 ( $\pm$  1% of measuring range)

#### **Dimensions**

190 x 75 x 275 (LxWxH mm)

### Weight

ca. 2.4 kg

## **SCOPE OF SUPPLY**

- Analog CO, Gehaltemeter, type GMT
- Service set
- Battery
- · Carrying handle
- · Set of two hoses
- · Instruction manual

## **OPTIONS**

- Certificate of measurement
- Charger with two rechargeable batteries

#### HAFFMANS B.V.

P.O. BOX 3150, 5902 RD VENLO, NETHERLANDS WWW.FOODANDBEVERAGE.PENTAIR.COM

<sup>\*</sup> Standard execution. When ordering, please state which thermometer, manometer and slide rule you require.
